

Summer Vacation in Greenland

Inuit Carvings

by Steve Reznek, Woodworkers Guild

February 25, 2016 - 7pm to 9pm

Steve visited beautiful Greenland this past summer and created a wonderful presentation highlighting the land, its people and its art culture. He was asked by the Weston Art Association to share his experience. Now we are fortunate to have him share his adventure, beautiful photos and his collection of Inuit Carvings with LACS.

There have been 3 different Inuit cultures dating back from 2500 BC to the present. Their artisans have continued the tradition of carving Tupilaqs in stone, wood and reindeer horn.

Please join us for this interesting presentation.
